SUBJECT: Technical Panel Report of Defense
Science Board Task Force on Computer
Security

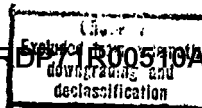

1. We attach a copy of the Technical Panel report (dated 15 July 1968) of the DSB Task Force on Computer Security. At a meeting on 18 July 1968 the Steering Group of the DSB Task Force on Computer Security agreed to release the document for review by all members of its Steering Group and Technical and Policy panels.

2. It was decided by the Steering Group that this document should be given a careful checking and review before it is released to the community or the public. The Steering Group is concerned not only about the specifics in the report on security problems, requirements and proposed solutions, it also desires to weigh the impact of a document of this kind on present community procedures as well as on computer hardware developments.

3. The Steering Group has requested that reactions be prepared by panel members and agency representatives in writing and that these be placed in the hands of the chairman by 1 September 1968.

4. Our suggestion is that the CIA Computer Working Group provides the appropriate CIA mechanism for coordination of reactions from interested CIA components.
